

Asheni Imalsha

Full-Stack Development | Mobile Application Development | DevOps | Quality Assurance Engineering

Colombo, Sri Lanka | Asheniimalsha0@gmail.com | 076 204 7659 | Asheni-Imalsha | asheni-imalsha

SUMMARY

Software Engineering undergraduate with hands-on experience in full-stack development and mobile application development. Proficient in modern technologies including Spring Boot, MERN stack, Next.js, Java, PHP, C++, R and SQL, with a strong foundation in building scalable web applications and RESTful APIs. Experienced in both frontend and backend development, database design, and system integration. Passionate about developing efficient, user-focused software solutions and continuously learning emerging technologies.

EDUCATION

BSc (Hons) in IT Specializing in Software Engineering

Nov 2023 - Present

Sri Lanka Institute of Information Technology (SLIIT)

- GPA : 3.76

TECHNICAL SKILLS

- **Programming & Query Languages:** Python, R, Java, JavaScript, TypeScript, PHP, SQL, Kotlin, C, C++
- **Web & Full-Stack Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js), Next.js, Spring Boot, RESTful API Development, Microservices Architecture
- **Mobile Application Development:** Android Development (Kotlin/Java), Cross-platform concepts, API Integration
- **Frontend Development:** React.js, Next.js, HTML, CSS, Tailwind CSS, Responsive UI/UX Design
- **Backend Development:** Node.js, Express.js, Spring Boot, PHP, Java Servlets
- **Databases:** MySQL, MongoDB, Oracle
- **DevOps & Cloud:** Docker, Kubernetes, Containerization, Basic CI/CD Concepts
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Playwright, Virtual Environments (venv)
- **Concepts:** Object-Oriented Programming (OOP), MVC Architecture, REST APIs, Model Deployment, Cloud Computing, Web Development Stacks, Data Warehousing, ETL Process, Business Intelligence

PROJECTS

Blüm – Flower Shop Mobile Application | Kotlin, XML

- Developed a mobile application for a flower shop enabling users to browse products, place orders, and manage purchases seamlessly.
- Designed intuitive user interfaces using XML and implemented core functionalities in Kotlin, including order management and user authentication.

Uplift – Health and Well-being Mobile Application | Kotlin, XML

- Developed a mobile application focused on promoting health and well-being through features such as activity tracking, reminders, and personalized insights.
- Designed user-friendly interfaces using XML and implemented core functionalities in Kotlin, including user data management and interactive features.

Medicare – Healthcare Management System | MERN Stack (MongoDB, Express.js, React, Node.js)

- Developed a comprehensive full-stack healthcare management system supporting appointment booking, patient management, pharmacy orders, diagnostic tests, and role-based administration.
- Built a RESTful API using Node.js and Express, and a responsive frontend using React (Vite), ensuring efficient data handling and seamless user experience.

Telemedicine Platform – Healthcare Microservices Platform | MERN Stack, Kafka, Docker, Kubernetes, API Gateway

- Developed a production-ready telemedicine platform using microservices architecture, enabling scalable healthcare management and real-time communication.
- Containerized services using Docker and orchestrated deployments with Kubernetes, integrating API Gateway, MongoDB, and Kafka for efficient, reliable, and scalable system operations.

CeylonBrew- Tea Plantation Management System | Next.js, Spring Boot, MySQL

- Developed an enterprise-level full-stack application to automate tea plantation workflows and operations with strong security validation.
- Implemented role-based access for farmers, suppliers, factory staff, plantation managers, and delivery teams, along with graphical data visualization.

Hope Flow - Blood Donation Management System

- Developed a web-based blood donation management system using HTML, CSS, JavaScript, PHP, MySQL, jQuery, and AJAX.
- Optimized data handling with AJAX for real-time updates and improved MySQL query performance.

CafeLounge – Workspace Management and Café Ordering System | PHP, MySQL, Tailwind CSS, JavaScript

- Developed a web-based workspace management and café ordering system using PHP, MySQL, Tailwind CSS, and JavaScript with secure user registration and authentication features.
- Implemented desk and meeting room booking management (create, edit, delete), active booking visibility, digital café menu browsing, and shopping cart functionality for ordering coffee and snacks.

FlexRide – Vehicle Renting System | Java Servlets, JSP, JDBC

- Developed a Java-based web application for vehicle renting using Servlets, JSP, and JDBC following the MVC architecture.
- Implemented complete CRUD functionality for managing vehicles, bookings, and users, ensuring efficient data handling and structured application flow.

Beauty Queen Fashion – Digital Printing Website | TypeScript, JavaScript, CSS

- Developed and hosted a client-based web application for a digital printing and fashion business using TypeScript, JavaScript, and CSS with a responsive modern UI.
- Implemented product and service showcase pages, customer inquiry functionality, and user-friendly navigation to improve customer engagement and accessibility.

Personal Portfolio Website | TypeScript, JavaScript, Tailwind CSS, CSS

- Developed and deployed a responsive personal portfolio website using TypeScript, JavaScript, Tailwind CSS, and CSS to showcase projects, technical skills, education, and professional achievements.
- Implemented modern UI/UX design principles, interactive navigation, project highlights, and mobile-friendly layouts to enhance user engagement and accessibility.

CERTIFICATIONS

- **AI/ML Engineer – Stage 1** — Sri Lanka Institute of Information Technology (SLIIT)
- **AI/ML Engineer – Stage 2** — Sri Lanka Institute of Information Technology (SLIIT)
